

| WFH |

A result-driven professional targeting assignments in **IT Software Development** with an organization of high repute,

Profile Summary

- ❖ **A high calibre IT Professional** offering **over 10 years** of progressive experience
- ❖ Identified architectural improvements resulting in increased developer efficiency, product reliability, and responsiveness to new feature requests
- ❖ Continuously adjusted priorities and addressed issues to improve efficiency; achieved committed product content and quality goals on time after staff reductions and increases in content
- ❖ Implemented and created the full life cycle process for large-scale software development
- ❖ Provided insightful knowledge of business process analysis (As-Is, To-Be) and design; managed application based process re-engineering, process optimization from technical solutions using cutting-edge technologies
- ❖ Proficient in understanding needs of stakeholders by evaluating & analysing data and creating solutions

Core Competencies

Business Vision, Transformation and Growth / Software Development Lifecycle (SDLC) / Defect Resolution & Design Optimization/ Release Management/ Software Engineering Delivery & Innovation / Process Improvements & Best Practice Implementation / Change Management / Technology Planning

Organizational Experience

Since May'21 with FIS as Senior Lead Engineer/Senior Software Engineer

Key Result Areas:

- ❖ Performing analysis, design, verification, demonstration and maintenance of products in a process-driven, team environment
- ❖ Developing and executing unit/basic/functional test cases and framework
- ❖ Contributing to software improvements (products, processes, methods, tools), design inspection and code review
- ❖ Participating in requirements gathering for enhancements and creation of high-level as well as detailed-level design documents
- ❖ Liaising with stakeholders during problem diagnoses, requirements gathering, detailed level design, development, system test and production implementation to ensure that optimal resolutions were achieved
- ❖ Managing the development & integration of various modules within the framework
- ❖ Conducting integration and unit testing with the help of Google Test; reviewed detailed design, code & test cases; resolved various defects, errors and issues encountered
- ❖ Enhancing modules delivered to production by rewriting and developing new code to improve the efficiency and effectiveness of systems

Sep'19 – Apr'21 with DXC Technology as Technical Analyst

Key Result Areas:

- ❖ Managed large and complex projects or multiple components of a large project involving more than one company's product
- ❖ Liaised with internal/external clients to determine specific requirements and expectations; managed client expectations as an indicator of quality
- ❖ Created & managed the estimates, project plan, project schedule, resource allocation and expenses to ensure that targets were reached
- ❖ Followed project life cycle methodology defined under the process framework; ensured that customer deadlines were met within project budgets

Previous Experience

- ❖ Dec'14 – Aug'19 with CAPGEMINI India Pvt Ltd as J2EE Developer
- ❖ Sep'11 – Dec'14 with Oracle Financial Services Software LTD as Java Developer

Projects

- ❖ Title: ADIB – Abu Dhabi Bank Project
- ❖ Involved in analysis, development, Testing and Support
- ❖ Duration: 5 Months (Jun'21 – Nov'21)
- ❖ Skills Used: Java, J2EE, Grafana, IntelliJ, SVN, Oracle database, Jenkins, CentOS
- ❖ Analyzed, developed and maintained OPF framework (banking) for banking RTGS and Non-RTGS transactions and instructions. The basic framework consists of parser (parses the incoming file formats like MT103), warehousing, de-warehousing, account-posting, account-verification, formatting, foreign currency exchange
- ❖ Title: Mandiri Bank Project
- ❖ Involved in development, Testing and Support
- ❖ Duration: till date (Nov'21 – till date)
- ❖ Skills Used: Java, J2EE, Grafana, IntelliJ, SVN, Oracle database, Jenkins, CentOS, Eclipse
- ❖ Analyzed, developed and maintained OPF framework (banking) for banking RTGS and Non-RTGS transactions and instructions. The basic framework consists of parser (parses the incoming file formats like MT103), warehousing, de-warehousing, account-posting, account-verification, formatting, foreign currency exchange
- ❖ Title: Vodafone ECare
- ❖ Involved in Requirement analysis, design, development, implementation and support
- ❖ Duration: 1 Year 3 Months (Sep'19 – till date)
- ❖ Skills Used: Java, J2EE, Web Services (REST), JDeveloper, SVN, TIBCO services instead of database
- ❖ Maintained web services to read data from TIBCO services and provide to clients
- ❖ Developed different payment flows as per the requirement of the client. Unit testing through UI and logs was also performed. Implemented required changes to UI using ADF and Middleware as per the requirement. Updated the usage guides as per the development done by the team

Educational Details

- ❖ B.E. in Computer Science from Rajiv Gandhi Institute of Technology (VTU), Bangalore in 2011

Certifications

- ❖ Certified Scrum Master I (PSM I) from scrum.org
- ❖ ORACLE Certified JAVA SE 6 PROGRAMMER

Trainings

- ❖ Attended training, provided presentation and implemented the technology of ADF
- ❖ Training for basic application development using Android
- ❖ Training of Hibernate
- ❖ Training of Core Java

Technical Skills

- | | |
|--|--|
| ❖ Programming Languages: Java (1.8)/J2EE | ❖ Application/Web Server: Apache Tomcat, WebLogic |
| ❖ Web Technologies : HTML, XML, XSL | ❖ Tools: Maven, Git, Ant, JDeveloper, Tortoise SVN, Eclipse, Junit, SoapUI, Hudson |
| ❖ Framework : ADF, Spring, IBATIS | ❖ Service-Based Technology: SOAP, (Beginner) REST D |
| ❖ Database : Oracle | |

Personal Details

Date of Birth: 9th May 1989

Languages Known: English, Hindi & Bengali

Address: Chhattisgarh
